Sustainable Waste Solutions for Single-Use

Tuesday, August 11, 2020

About the Speakers

Greg Rosinski, Sr Manager Life Sciences, Triumvirate Environmental, Inc.

Greg has been with Triumvirate since 2006. He manages internal clients by providing a high level of service, expertise, and talented professionals for environmental, health, and safety programs.

In addition, his role includes:

- Manages capital planning projects, regulatory consulting programs, hazardous waste management and disposal, regulated medical waste management and disposal, field service projects, engineering, construction projects, remediation, lab compliance, lab moves, lab/building decommissioning projects, closure reports, and audit programs
- Works on delivering services to new clients
- Waste minimization, sustainability, and innovation expert
- He manages all Triumvirate service efforts working closely with his clients to ensure each expectation and need is met throughout the service delivery process

Steve Todisco, Corporate Director of Sustainability, and General Manager of the Pennsylvania Recycling Facility, Triumvirate Environmental, Inc.

Steve has been with Triumvirate since 2003. He has run Healthcare Industry vertical for 12 years and through extensive environmental experience, has led Triumvirate to the creation of their unique recycling process and Red2Green initiative. Steve is an industry expert in the management of highly complex, multi-discipline, waste management programs with a focus on the circular economy.

Meredith Daley, Global Waste Solutions Manager, Thermo Fisher Scientific

Meredith has been with Thermo Fisher since 2008. She oversees the Global Waste Strategy, where she institutes initiatives that reduce waste at Thermo Fisher and manages the performance of waste vendors to support these projects. Prior to this, she was the Environmental, Health, and Safety Manager at the Frederick, MD location. Some of her greatest achievements include launching the Worldwide SeqStudio Cartridge Customer Recycling Program, preparing sites for Zero Waste Certification, finding solutions to difficult to recycle single-use products, and becoming the only company to win the Maryland Green Registry Leadership Award three times in a row.

She has a Master of Public Health (MPH) in Environmental Health Sciences from University of Maryland. She is passionate about solving the challenging problems that prevent us from implementing cost effective environmental sustainability solutions.

Sebastien Dalmagne, Business Development Manager, BioPharm Division, Progressive Recovery Inc (PRI)

Sebastien has eight years working in the biohazardous waste industry – working with pharmaceutical and biotech companies to provide reliable solutions.

For more than 35 years, PRI has advanced the science in hazardous liquid and solid waste treatment, specializing in the design and manufacture of sterilization and digester equipment. PRI's products are currently used in over 36 countries worldwide, with over 3,000 units installed. PRI Bio is now a single source solutions provider for virtually all biowaste decontamination needs, for liquids, tissue, medical regulated waste, single-use shredding/sterilization, pH neutralization and autoclaves
