Instructions to join will be emailed one day prior

Program Manager: David Steinberg, Director Facilities, AbbVie (Allergan)

Moderator: Justin Cantor, Chief Strategy Officer, PSC Biotech

Speakers: Evan Domingue, P.E., Sales Engineer, EMCOR Services Mesa Energy Systems
Paul Fuson, Sr. National Sales Manager, Life Sciences, Siemens Intelligent Infrastructure

Background:

Essential, critical life science facilities have continued their important work through this pandemic. But the question remains – how can we create environments that are as safe, secure, healthy, and efficient as possible? We will discuss ways we can leverage our buildings to help protect our people, our assets, and our environment through the ongoing fight against the COVID-19 virus.

Topics to be Discussed:

- ASHRAE and CDC recommendations for buildings around COVID-19
- Simple engineering controls to improve occupant safety
- HVAC strategies for reducing the spread of viruses
- Understanding your building's defense capabilities
- Air treatment technologies

About the Speakers and Program Manager

Evan Domingue, P.E., Sales Engineer, EMCOR Services Mesa Energy Systems

Evan is an engineering professional with extensive design and installation experience in the healthcare and life science industries. After graduating with his BS in Mechanical Engineering from Cal Poly San Luis Obispo, he worked as a Design Engineer and Project Manager for a sustainable and innovative consulting engineering firm. Evan has excelled at designing projects ranging from hospital central plants to clean rooms and labs.

After earning his Professional Engineering License in the State of California, he shifted gears away from the design-only side to design-build contracting. In his current role, Evan helps critical environment customers throughout Southern California achieve reliable, efficient, and safe holistic building systems. He lives in Huntington Beach and enjoys surfing, rock climbing, and golf in his free time.

Paul Fuson, Sr. National Sales Manager, Life Sciences, Siemens Intelligent Infrastructure

In his current position, Paul manages sales and business development efforts focused on life science and laboratory markets in 100+ offices across North America, Middle East and Asia-Pacific. He has 36 years in the building controls industry, 31 years have been spent developing and delivering safe ventilation control solutions for healthcare critical environments. Has lead or supported teams that developed Siemens GOLO Intelligent Air Valve, venturi air valves, retrofit kits for competitors venturi valves, lab blade damper terminals, pressurized room and fume hood control, lab Demand Control Ventilation and other components of the "Green Lab Solution".

Paul has an MBA, BS in Mechanical Engineering and BS in Physics and is a regular speaker for ASHRAE, ASHE and I2SL on Critical Environments.

David Steinberg, Director Facilities, AbbVie (Allergan)

David has over 30 years of project management and engineering experience in the biotechnology and pharmaceutical industries. He has led engineering and facilities operations organizations at leading companies in the industry. David joined AbbVie as a legacy Allergan employee in Irvine, CA, in June 2020. Prior to Allergan, he was the Director Engineering & Operations at the Lawrence J. Ellison Institute for Transformative Medicine at USC. Before joining USC, he was the Executive Director Engineering & Facilities at Nantkwest, Director Engineering & Facilities at Agensys, and Associate Director Engineering at Gilead. Prior to joining Gilead, David held engineering leadership roles supporting GMP commercial, clinical and sterile manufacturing, and within EH&S at Amgen in Thousand Oaks. David started his career working at Merck, with supporting GMP operations in West Point, PA.
